2. Chairman's Statement

Dear Shareholders,

Your Company completed the financial year ended 31 March 2025 with revenue from operations of ■ 3,489.2 crore, an increase of 15.7 per cent over the preceding year, and profit for the year of ■ 62.6 crore against ■ 39.3 crore. Earnings per share rose to ■ 12.88 from ■ 8.09.

The result reflects three years of deliberate repositioning. When I wrote to you in 2021, your Company was primarily a freight brokerage with a modest warehousing footprint and a loss for the year. The decision taken then — to invest in owned and long-leased warehousing capacity and to build the technology to operate it — was not without risk, and it depressed reported earnings for two years while capacity was commissioned ahead of demand.

That investment is now producing returns. Contract logistics, which contributed 31 per cent of revenue in FY 2021, contributed 45.8 per cent this year, and it does so at a materially higher margin than brokered freight. Warehousing area under management grew from 3.9 million square feet to 8.2 million square feet over the same period, and the number of operating facilities from seventeen to thirty-one.

Two developments during the year merit particular mention. The first is the commissioning of the temperature-controlled facility at Bhiwandi Unit II, which took your Company into pharmaceutical cold chain distribution — a segment with demanding compliance requirements and correspondingly better economics. The cold chain business contributed ■ 256.8 crore in its first full year of operation.

The second is the completion of the FleetLink version 4.2 deployment across all thirty-one facilities. Your Company now operates a single transport and warehouse management platform rather than the collection of facility-level systems it inherited from earlier acquisitions. The operational benefit is visible in the improvement in dock-to-stock time and in the reduction of inventory adjustments at the annual physical verification.

I would caution against extrapolating this year's growth uncritically. Freight rates remained soft through much of the year, which suppressed our forwarding revenue but also reduced our own procurement cost. A reversal in rates would move both, and not symmetrically. Diesel prices, driver availability and the cost of warehousing land near consumption centres all remain sources of pressure that we do not control.

On behalf of the Board I record my appreciation of the 6,842 colleagues who operate our facilities and fleet, frequently through the night and in conditions that are more demanding than any statement of financial performance conveys.

D. R. Sathe
Chairman
Pune, 22 May 2025

3. Board's Report

Your Directors present the nineteenth Annual Report together with the audited financial statements for the financial year ended 31 March 2025.

3.1 Financial results

Particulars	FY 2025	FY 2024
Revenue from operations	3,489.2	3,016.7
Other income	42.6	38.1
Total income	3,531.8	3,054.8
Total expenses excluding finance cost and depreciation	3,172.1	2,765.1
Earnings before interest, tax, depreciation and amortisation	359.7	289.7
Finance costs	118.4	104.6
Depreciation and amortisation expense	196.8	168.3
Profit before tax	87.1	54.9
Tax expense	24.5	15.6
Profit for the year	62.6	39.3
Other comprehensive income, net of tax	(1.8)	(0.7)
Total comprehensive income	60.8	38.6

3.2 Dividend

Your Directors recommend a dividend of ■ 6.00 per equity share of face value ■ 10 each for the financial year ended 31 March 2025, amounting to ■ 29.2 crore, against ■ 5.00 per share in the preceding year. The recommendation is subject to the approval of members at the ensuing Annual General Meeting and is in accordance with the Dividend Distribution Policy adopted by the Board.

3.3 Transfer to reserves

Your Directors do not propose to transfer any amount to the general reserve for the year under review. The entire balance of profit after the appropriation described above is retained in the statement of profit and loss.

3.4 Share capital

There has been no change in the authorised, issued, subscribed or paid-up share capital of the Company during the year. The paid-up equity share capital as at 31 March 2025 was ■ 48.6 crore comprising 4,86,00,000 equity shares of ■ 10 each fully paid up. The Company has not issued shares with differential voting rights, sweat equity shares or employee stock options during the year.

3.5 Directors and key managerial personnel

Name	Designation	Category	Appointed
D. R. Sathe	Chairman	Non-executive, non-independent	11 Jul 2006
V. Raghavan	Chief Operating Officer and Whole-time Director	Executive	01 Aug 2019
M. S. Iyer	Managing Director	Executive	14 Sep 2012
Dr. S. Bhattacharya	Director	Independent	27 Mar 2019
N. Qureshi	Director	Independent	27 Mar 2019
L. Pereira	Director	Independent	09 Nov 2021
A. Krishnamurthy	Director	Independent	18 May 2023
R. Deshpande	Chief Financial Officer	Key managerial personnel	01 Apr 2020
S. Ghatge	Company Secretary	Key managerial personnel	12 Feb 2018

Mr. L. Pereira retires by rotation at the ensuing Annual General Meeting and, being eligible, offers himself for re-appointment. All independent directors have furnished declarations confirming that they meet the criteria of independence prescribed under Section 149(6) of the Companies Act, 2013, and the Board has assessed those declarations and is satisfied as to their veracity.

3.6 Board meetings

The Board met six times during the year, on 24 May 2024, 08 August 2024, 30 September 2024, 12 November 2024, 06 February 2025 and 18 March 2025. The maximum interval between any two consecutive meetings did not exceed one hundred and twenty days.

3.7 Subsidiaries, associates and joint ventures

The Company has one wholly owned subsidiary, Northbridge Coldchain Solutions Private Limited, incorporated on 14 June 2023 to hold the cold chain operating assets at Bhiwandi Unit II. The subsidiary recorded revenue of ■ 256.8 crore and profit after tax of ■ 14.2 crore for the year. The Company has no associate or joint venture.

3.8 Deposits

The Company has neither accepted nor renewed any deposit from the public within the meaning of Chapter V of the Companies Act, 2013 during the year under review, and no amount remained unpaid or unclaimed as at 31 March 2025.

3.9 Particulars of loans, guarantees and investments

Details of loans given, guarantees provided and investments made during the year, together with the purpose for which the recipient proposes to utilise them, are furnished in Notes 8 and 34 to the financial statements.

3.10 Related party transactions

All transactions entered into with related parties during the year were on an arm's length basis and in the ordinary course of business. No transaction was material within the meaning of the Company's policy on related party transactions. Particulars are furnished in Note 34.

3.11 Internal financial controls

The Board has laid down internal financial controls with reference to the financial statements. During the year the Audit Committee reviewed the design and operating effectiveness of those controls, and the statutory auditor has reported on their adequacy in the annexure to the Independent Auditor's Report. One control deficiency relating to the timeliness of three-way matching at two recently commissioned facilities was identified during the year and remediated by 31 January 2025 through the extension of the FleetLink procure-to-pay module to those sites.

3.12 Corporate social responsibility

The Company's CSR obligation for the year, computed at two per cent of the average net profit of the three immediately preceding financial years, was ■ 0.96 crore. An amount of ■ 0.98 crore was spent on driver welfare and road safety programmes, vocational training in warehouse operations for candidates from the neighbourhoods surrounding the Bhiwandi and Hosur facilities, and the provision of rest facilities at three transport nagars.

3.13 Conservation of energy and technology absorption

- Rooftop solar installations of 4.2 MWp aggregate capacity were commissioned at the Bhiwandi, Chakan and Hosur facilities, meeting approximately 31 per cent of those facilities' annual electricity requirement.
- Warehouse lighting at eleven facilities was converted to LED with occupancy sensing, reducing lighting load by an estimated 38 per cent at those sites.
- Forty-two diesel forklifts were replaced with lithium-ion electric equivalents.
- Foreign exchange earned during the year was ■ 214.6 crore and foreign exchange outgo was ■ 186.2 crore.

3.14 Risk management

The Board has constituted a Risk Management Committee and has adopted a risk management policy. The principal risks identified and the mitigating measures adopted are described in Section 5 of this report.

3.15 Statutory auditor

Kanetkar Bhide & Associates, Chartered Accountants, were appointed at the sixteenth Annual General Meeting for a term of five consecutive years, and continue as statutory auditor. Their report for the year under review does not contain any qualification, reservation, adverse remark or disclaimer.

3.16 Secretarial audit

The secretarial audit report issued by P. R. Vaidya & Co., Company Secretaries, is annexed to this report and does not contain any qualification, reservation or adverse remark.

3.17 Prevention of sexual harassment

The Company has constituted Internal Committees at each of its facilities in accordance with the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. Two complaints were received during the year, both of which were disposed of within the statutory timeline. No complaint remained pending as at 31 March 2025.

3.18 Material changes after the reporting date

On 28 April 2025 the Company executed a lease for a 640,000 square foot facility at Farukhnagar, Haryana, with rent commencing on 1 October 2025. No other material change or commitment affecting the financial position of the Company has occurred between the end of the financial year and the date of this report.

4. Management Discussion and Analysis

4.1 Industry structure and development

The Indian third-party logistics market continues to consolidate. Demand is being reshaped by three forces: the migration of manufacturing capacity into clusters that require organised warehousing, the compression of delivery expectations in consumer categories, and the compliance requirements attaching to regulated goods, particularly pharmaceuticals and packaged food. Each of these favours operators able to offer network coverage, temperature-controlled capacity and auditable process discipline over those competing principally on freight rate.

Against that, the industry remains highly fragmented at the transportation layer, where barriers to entry are low and pricing is transparent. Sustained margin improvement is therefore available principally in warehousing, value-added services and regulated cold chain, and only marginally in brokered freight.

4.2 Segment performance

Segment	FY 2025 revenue	FY 2024 revenue	Growth (%)	FY 2025 segment result	Margin (%)
Contract logistics	1,596.4	1,342.8	18.9	212.4	13.3
Freight forwarding	981.7	926.4	6.0	48.2	4.9
Express distribution	654.3	586.2	11.6	62.8	9.6
Cold chain	256.8	161.3	59.2	36.3	14.1
Total	3,489.2	3,016.7	15.7	359.7	10.3

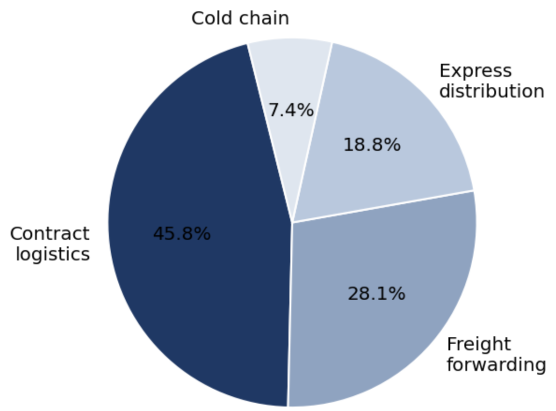

Chart 2: Revenue contribution by reportable segment, FY 2025. Contract logistics and cold chain together contributed 53.2 per cent of revenue and 69.1 per cent of segment result.

4.3 Contract logistics

Contract logistics comprises dedicated and multi-user warehousing together with the value-added services performed within those facilities — kitting, labelling, co-packing, quality inspection and returns processing. Revenue grew 18.9 per cent to ■ 1,596.4 crore, driven principally by the full-year effect of five facilities commissioned during FY 2024 and by the addition of 1.3 million square feet during the year under review.

Segment margin improved to 13.3 per cent from 12.4 per cent. The improvement is attributable to higher utilisation at facilities in their second and third year of operation, and to the growth of value-added services, which now contribute 21 per cent of segment revenue against 17 per cent in the preceding year.

4.4 Freight forwarding

Freight forwarding revenue grew 6.0 per cent to ■ 981.7 crore. Volume grew in double digits but realisation per consignment declined as ocean and air rates softened through the first three quarters. Segment margin was 4.9 per cent against 4.6 per cent, the improvement reflecting a shift in mix towards contract-backed lanes and away from spot brokerage.

4.5 Express distribution

Express distribution revenue grew 11.6 per cent to ■ 654.3 crore. The segment operates a hub-and-spoke network of nine hubs and one hundred and fourteen branches. Segment margin was 9.6 per cent against 9.1 per cent.

4.6 Cold chain

Cold chain completed its first full year of operation following the commissioning of the Bhiwandi Unit II temperature-controlled facility in the fourth quarter of FY 2024. Revenue was ■ 256.8 crore against ■ 161.3 crore for the part year. The segment recorded no temperature excursion resulting in product loss during the year, an outcome the Board regards as the single most important operating indicator for this business.

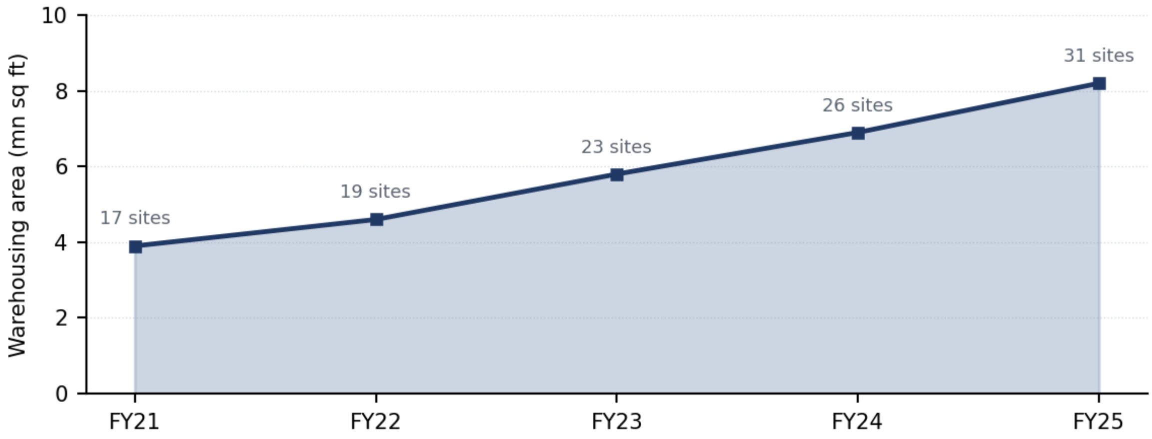

Chart 3: Warehousing area under management and number of operating facilities, FY 2021 to FY 2025.

4.7 Cost analysis

Cost head	FY 2025	% of revenue	FY 2024	% of revenue
Freight and transportation	1,842.4	52.8	1,608.9	53.3
Warehouse operating expenses	486.3	13.9	421.7	14.0
Employee benefits expense	512.7	14.7	449.2	14.9
Other expenses	288.1	8.3	247.2	8.2
Finance costs	118.4	3.4	104.6	3.5
Depreciation and amortisation	196.8	5.6	168.3	5.6

Freight and transportation cost fell by 50 basis points as a proportion of revenue, reflecting both the softer rate environment and the increasing share of warehousing in the revenue mix. Employee benefits expense fell by 20 basis points despite headcount growing 15.7 per cent, as the proportion of employees engaged in higher-productivity mechanised facilities increased.

4.8 Financial position and liquidity

Net debt at the reporting date was ■ 604.6 crore against ■ 550.6 crore, and net debt to EBITDA improved to 1.68 times from 1.90 times. The Company had undrawn fund-based facilities of ■ 185.0 crore as at 31 March 2025. Trade receivable days were 71 against 72, and the expected credit loss allowance was 3.1 per cent of gross receivables against 2.9 per cent.

4.9 Human resources

Particulars	FY 2025	FY 2024
Employees on rolls	6,842	5,914
Contract personnel deployed (average)	4,318	3,742
Voluntary attrition — all grades (%)	18.4	21.6
Voluntary attrition — supervisory and above (%)	11.2	13.8
Training hours delivered	1,42,600	1,08,400
Lost time injury frequency rate (per million hours)	0.41	0.68
Facilities certified to ISO 45001	24	18

5. Risk Management

Risk	Description	Mitigation	Trend
Customer concentration	The five largest customers contributed 38.4 per cent of revenue (FY 2024: 42.1 per cent). Loss of a large contract logistics customer would leave dedicated capacity unutilised.	Multi-user facility design where commercially feasible; contract tenures of three years or more with notice periods; active diversification of the customer base.	Improving
Fuel price	Diesel represents approximately 29 per cent of own-fleet operating cost. A sustained increase compresses margin on fixed-rate contracts.	Fuel escalation clauses in 71 per cent of contract logistics agreements by value; quarterly rate revision in express distribution.	Stable
Driver availability	Shortage of licensed heavy vehicle drivers constrains own-fleet utilisation and increases wage cost.	In-house driver training school; retention-linked incentives; rest facility investment; increased use of contracted capacity on non-core lanes.	Deteriorating
Warehousing land cost	Land and rental cost near consumption centres has risen faster than achievable storage rates.	Long-tenure leases with capped escalation; build-to-suit arrangements with developers; selective land acquisition in emerging clusters.	Deteriorating
Cold chain compliance	Temperature excursion in pharmaceutical distribution can result in product loss, customer claim and regulatory action.	Validated equipment with dual redundancy; continuous monitoring with automated alerting; documented excursion procedure; annual customer audit.	Stable
Information systems	Operations at all facilities depend on a single platform. Extended unavailability would halt receipt and dispatch.	Documented manual fallback at every facility; recovery time objective of four hours; quarterly restoration testing; geographically separate secondary site.	Improving
Cyber security	Unauthorised access to customer inventory and pricing data would constitute a contractual breach.	Access on a least-privilege basis; multi-factor authentication for privileged accounts; annual penetration testing; incident response plan tested half-yearly.	Stable
Regulatory and tax	Changes in indirect tax, e-way bill requirements or state-level transport regulation affect cost and compliance load.	Dedicated indirect tax function; automated e-way bill generation within FleetLink; external advisory retained.	Stable
Credit	Extended receivable cycles in certain customer segments.	Credit limits enforced systemically; monthly ageing review by the Chief Financial Officer; trade credit insurance on selected accounts.	Stable
Climate and physical	Monsoon flooding has historically disrupted the Bhiwandi cluster.	Plinth levels raised at all owned facilities; business interruption insurance; contingency capacity within the network.	Deteriorating

7. Independent Auditor's Report

To the Members of Northbridge Logistics Limited

Report on the audit of the financial statements

Opinion. We have audited the accompanying financial statements of Northbridge Logistics Limited, which comprise the Balance Sheet as at 31 March 2025, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the financial statements including a summary of material accounting policies.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view of the state of affairs of the Company as at 31 March 2025, and of its profit, changes in equity and cash flows for the year ended on that date, in conformity with the accounting principles generally accepted in India.

Basis for opinion

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Our responsibilities under those Standards are described in the section on the auditor's responsibilities below. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India, and we have fulfilled our other ethical responsibilities. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matter	How our audit addressed the matter
Revenue recognition on incomplete transportation services. Freight revenue is recognised over the period of transit. At the reporting date a significant number of consignments were in transit, requiring estimation of the proportion of each service performed. The estimate affects both revenue and unbilled receivables.	We evaluated the design and tested the operating effectiveness of controls over the capture of consignment milestones in FleetLink. We reperformed the transit-stage computation for a sample of 120 consignments open at the reporting date, agreeing inputs to electronic proof of delivery and gate records. We tested subsequent delivery for consignments open at the reporting date and compared the estimate to the eventual outcome.
Recoverability of trade receivables. Gross trade receivables of ■ 704.2 crore carry an expected credit loss allowance of ■ 21.8 crore. Determining the allowance requires judgement over ageing, historical loss experience and customer-specific circumstances.	We tested the completeness and accuracy of the ageing analysis by agreeing a sample to underlying invoices. We evaluated the historical loss rates applied and recomputed the provision matrix. For the fifteen largest overdue balances we examined correspondence, subsequent collection and, where relevant, legal opinions, and assessed whether management's conclusions were supportable.
Measurement of lease liabilities and right-of-use assets. The Company holds 31 warehousing leases. Measurement depends on lease term assumptions where extension options exist, and on the incremental borrowing rate applied.	We obtained the lease register and agreed it to a sample of executed lease deeds. We challenged the lease term assumption for eight leases containing extension options by reference to facility-specific investment and operational plans. We independently assessed the incremental borrowing rates by reference to the Company's own recent borrowing terms and to observable market data for comparable tenures.

Report on other legal and regulatory requirements

As required by the Companies (Auditor's Report) Order, 2020, we give in Annexure A a statement on the matters specified in paragraphs 3 and 4 of the Order. As required by Section 143(3) of the Act, we report that we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit; that in our opinion proper books of account as required by law have been kept by the Company; and that the Company has adequate internal financial controls with reference to financial statements in place and such controls were operating effectively as at 31 March 2025.

12. Notes to the Financial Statements

Note 1 — Corporate information

Northbridge Logistics Limited is a public company incorporated on 11 July 2006 under the Companies Act, 1956 and domiciled in India. Its registered office is at Plot 14, Kalher Industrial Estate, Bhiwandi 421302, Maharashtra. The Company provides contract logistics, freight forwarding, express distribution and temperature-controlled logistics services within India, and international freight forwarding through agency arrangements.

Note 2 — Material accounting policies

2.1 Basis of preparation. The financial statements have been prepared in accordance with the Indian Accounting Standards notified under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015, on the historical cost basis except for certain financial instruments measured at fair value.

2.2 Revenue recognition. Freight and transportation revenue is recognised over the period of transit by reference to the proportion of the transit completed at the reporting date, measured using consignment milestone data. Warehousing revenue is recognised over the period during which storage is provided. Value-added service revenue is recognised on performance of the service. Revenue is measured at the transaction price net of variable consideration, and excludes goods and services tax.

2.3 Leases. At inception of a contract the Company assesses whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Right-of-use assets are measured at cost comprising the initial lease liability, initial direct costs and restoration obligations, less accumulated depreciation. Lease liabilities are measured at the present value of unpaid lease payments discounted at the incremental borrowing rate.

2.4 Property, plant and equipment. Items are stated at cost less accumulated depreciation and impairment. Depreciation is provided on the straight-line basis over the estimated useful life of the asset.

Asset class	Useful life applied	Basis
Buildings — owned	30 years	Schedule II, Companies Act, 2013
Racking and storage systems	15 years	Technical assessment
Material handling equipment	8 years	Technical assessment
Commercial vehicles	8 years	Schedule II
Refrigeration and HVAC plant	12 years	Technical assessment
Computers and peripherals	3 years	Schedule II
Furniture and office equipment	10 years	Schedule II
Software and licences	5 years	Management estimate

2.5 Impairment of financial assets. The Company applies the simplified approach permitted for trade receivables, recognising a lifetime expected credit loss at each reporting date using a provision matrix based on historical default experience adjusted for forward-looking information.

2.6 Employee benefits. Contributions to provident fund and employee state insurance are recognised as an expense as incurred. Gratuity, being a defined benefit obligation, is measured using the projected unit credit method with actuarial valuation at each reporting date; remeasurement gains and losses are recognised in other comprehensive income.

2.7 Use of estimates and judgements. The preparation of these financial statements requires management to make estimates and judgements that affect reported amounts. The areas involving the most significant estimation are the stage of completion of transportation services in transit, the expected credit loss allowance, the lease term where extension options exist, the incremental borrowing rate, the useful lives of assets, and the actuarial assumptions underlying defined benefit obligations.
